SHOW YOUR CUSTOMER EVERY OPTION.

How do you help customers navigate an almost endless sea of colors, fabrics, finishes, and accessories? With the KITS Configurator. It helps customers see how products look with every option and combination, using detailed, data-driven renderings to guide decisions quickly and confidently.

Configurator pulls directly from your latest product data to create accurate, high-quality images, empowering customers to explore

the full range of your solutions. They can share and review their selections through summary sheets, downloadable images, or AR views that bring products into real spaces.

Behind the scenes, real-time analytics show you which products, finishes, and options are being configured most often, helping you turn customer preferences into business insight. From a single product to your entire line, it's a powerful way to compare, share, and sell complex products online.

WEBSITE CUSTOMIZATION

Customize and embed it into your existing website, no redesign or disruption required.

AN AFFORDABLE SOLUTION

Enjoy powerful capabilities for the lowest cost of ownership in the industry.

EASY INTEGRATION

Built to fit your website and brand, not the other way around. Configurator can be customized through simple settings to match your site. Adding it to your site is quick and seamless, with no complex IT setup required.

REAL-TIME ANALYTICS

Gain instant insight into how customers interact with your products. Track which finishes, fabrics, and configurations are most explored or shared to guide design, marketing, and sales decisions.

SEE HOW CONFIGURATOR DRIVES DECISIONS.

AUGMENTED REALITY (AR) VIEWER

Use mobile-ready AR to show buyers how your products look in their space. No apps or installs required - just click on a QR code.

ENGINEERED FOR THE BUILT ENVIRONMENT

Purpose-built for the complexity and demands of configurable products and furniture.

TRUE 3D CONFIGURATION

Runs on live product data, not fixed renders, so every option, angle, and finish can be explored in real time. Updates are simple, visuals stay accurate, and customers get a fully interactive 3D experience.

INSTANT SPEC SHEETS & PDFS

Generate PDFs with pricing, selections, and product visuals for fast quoting, sharing, and approvals.

TURN INTERACTIONS INTO INSIGHTS.

Every click your customers make with KITS Configurator shows them how products look with different fabrics, finishes, and accessories—but it also shows you something valuable. By capturing live data on how customers interact with products on your website, Configurator can track current shopping preferences and identify trends by region or location. You'll know instantly which options are being shared, quoted, or purchased and which are being left behind. It's an ongoing source of measurable, evidence-based intelligence that you can use to guide product development, adjust offerings, and refine pricing and promotions to help your catalog evolve more strategically.

GET STARTED WITH CONFIGURATOR.

1

REACH OUT TO LEARN MORE.

We'd love to answer your questions and share a demo to show you everything Configurator can do.

2

CHOOSE YOUR PACKAGE.

Agile enough to start with one product or launch your full line, with prices at \$495/month, \$995/month, or \$1750/month, depending on product volume – the lowest cost of ownership in the industry.

3

TRAIN TODAY, USE IT TOMORROW.

No special skills needed. Our free training will turn you into a Configurator pro in no time, and our customer service team is always standing by should you need a little more support.

MEET THE REST OF THE KiSP FAMILY.

A powerful set of digital tools and services designed to support your sales at every stage from concept to close.

Entity

The digital tools of today and tomorrow all rely on one thing: data. Entity turns your catalog into one clean, accurate, and comprehensive set of data that can power all of our apps – and those from the other brands you use, too. And it's free and accessible to you all the time.

KITS

Collaborator

Getting aligned with customers can be a challenge. Thankfully, Collaborator provides a way to picture what you're thinking, allowing you to browse catalogs, explore thought starters, and create real-time renderings based on actual product data.

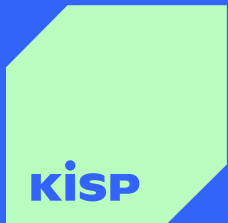

SnapTracker™

Manage furniture assets throughout their lifecycle, from warehouse to workspace and reuse or resale. Track the location, stage, and condition of every item, connecting seamlessly with leading procurement platforms to reduce waste, optimize value, and support sustainability.

Services That Help You Sell

There's more to KiSP than our software. We also offer expert services in visualization, CAD, and data creation. From CAD to virtual reality, product illustrations, and whatever visual support you need to sell, our team will work to elevate every project.

THRIVE IN THREE DIMENSIONS.
